2017-2019

Passed my College with high honors.

LANGUAGES

URDU - NATIVE

ENGLISH - BILINGUAL

GERMAN (Deutsch) - CONVERSATIONAL

PERSIAN - CONVERSATIONAL

PROFILE

I am a skilled and experienced full-stack developer with over 3 years of professional experience. I have a deep understanding of Javascript/TypeScript and its frameworks, and have a proven track record of delivering high-quality code in a timely manner. In addition to my expertise in Node.js, I am also advanced in ReactJS and NextJS, which allows me to deliver full-stack solutions. I am proficient in Unit-Testing with *Vitest* . I am also well-versed in AWS and have experience deploying applications on this platform. I use github-actions and docker for applying CI/CD & consistent deployments for my apps. Apart from all that, I am delving into ai models-tuning as a hobby.
